SECTION A 30marks)

SECTION B Answer any two Questions (40 MARKS)

SECTION A (30marks)

1. Briefly describe four partnership types (3 marks)
2. Outline at least three partnership elements (3marks)
3. Outline four importance of community partnership (3 marks)
4. Give four reasons why participatory planning during the partnership process is important (3 marks)
5. Briefly describe three characteristics of a successful partnership (3 marks)
6. Define the term partnership (3 marks)
7. List the key areas you must outline in developing a checklist for assessing a community during the partnership entry process (3 marks)
8. The challenges facing the formation of partnership sometimes can be complex, and cannot be understood in terms of simple linear cause and effect relationships. Briefly outline at least three of such challenges (3 marks)
9. Give three reasons why giving feedback to the community is important during the partnership process (3 marks)
10. List 6 roles of gate keepers in the community during the community partnership formation (3 marks)

SECTION B Answer any two Questions (40 MARKS)

1. Partnership seeks to recognize, affirm and build on the strengths of every stakeholder and partner to transform health and development situations based on their own capacity.
 - a) Based on the above statement, draw the partnership model illustrating the linkage between the different partners in the partnership model (10 marks)
 - b) Discuss the role of each partner in the above partnership model (10 marks)
2. In partnership building the partners must recognize that the skills and contributions of all parties are of equal value if relationships of mutual trust and confidence are to be established . As a community health focal person in county A you have been requested to spearhead the formation of a partnership with four different partners in recognition of the partners skills. Discuss the factors that you will take into consideration that are likely to influence partnership in health and development within the county (20 marks)
3. A strong, well-functioning partnership capable of efficiently delivering and managing health care services is vital to improving the health status of Kenyans. For the partnership relationship to effectively function, the steps of establishing the partnership must be followed. Using a relevant example, discuss the steps you will undertaken to establish the partnership. (20 marks)
4. As a community health specialist, you have been approached by a local NGO to partner together with them in addressing health concerns of a community in your county. The NGO representative has asked you to make a presentation to their team on the strategies that the partners could apply in the partnership. Discuss the partnership strategies that you include in your presentation for discussion with them (20 marks)
